MUSKCON 2010

www.musk.org.in

Dear Friends,

It is our great pleasure to bring you MUSKCON 2010, the flagship event of the Medical Ultrasound Society of Karnataka. As always, we have endeavored to explore the challenging and upcoming aspects of ultrasound imaging. To this end we have put together an array of exciting topics.

The theme of the workshop is **“Fetal Cranial Ultrasound – Including 3D /4D Applications.”** This is a live workshop and will be conducted by Dr. Ritsuko K. Pooh, Fetal Medicine Consultant, CRIFM Clinical Research Institute of Fetal Medicine PMC, Osaka, Japan. We hope to project specific indications for 3D and 4D ultrasound in fetal cranial imaging and more importantly hone our technical skills.

The conference topics are being dealt with by dedicated and accomplished specialists who have logged in many years of experience. Ample time has been earmarked for discussion. The trade exhibition will provide opportunities to update oneself with the technological scenario.

We wish you to be part of MUSKCON 2010!
